

lucitelux™ optical grade

Optical Grade sheet offers excellent optical characteristics, uniform thickness tolerances, light stability, and low internal stress levels for consistent performance. Optical Grade sheet is weatherable and can be easily cut, sawed, machined, thermoformed and cemented. Optical Grade is half the weight of glass with double the impact resistance.

FEATURES AND BENEFITS

- Outstanding optical properties
- More impact resistant than glass
- Allows for easy fabrication and fitting
- Broad scope for thermoforming into complex curve shapes
- Smooth, glossy surface that is comfortable and warm to the touch
- Easy to clean
- Excellent weather resistance
- Uniform caliper control
- Lightweight

APPLICATIONS

- Motorcycle windshields
- Aviation applications for non-military such as general aviation windshields
- Helicopter window applications
- Frame Grade
- Recreational Windshields

PRODUCT AVAILABILITY

- Optical Grade Clear
- Solar tints
- .118, .177, and .236

MASKINGS

- TufGuard® Masking
- Clear Film Masking
