

get into shape

**lucitelux**<sup>™</sup>  
JUST IMAGINE

...Frost shapes  
up to be a  
real winner!

LuciteLux™ has been a real crowd pleaser since it was originally launched in a range of subtle Pastel colors. A couple of years later the heat was turned up with the addition of Hot Frost - a range of warm and exciting colors to give designers of internal and external POS and signs even more colors to choose from.

Now we have added even more choice to the LuciteLux™ range with the development of two new color collections - Urban and Vivid.

LuciteLux™ - the winning line-up:

- ⬡ **Vivid** - Cutting edge modern colors: creative and cosmopolitan
- △ **Urban** - Cool, contemporary urban chic, a collection for a sophisticated loft lifestyle
- **Hot** - Make a strong and confident statement with these dramatic tones
- **Pastel** - Timeless and elegant, the classic Frost colors retain their allure

# get a creative edge...

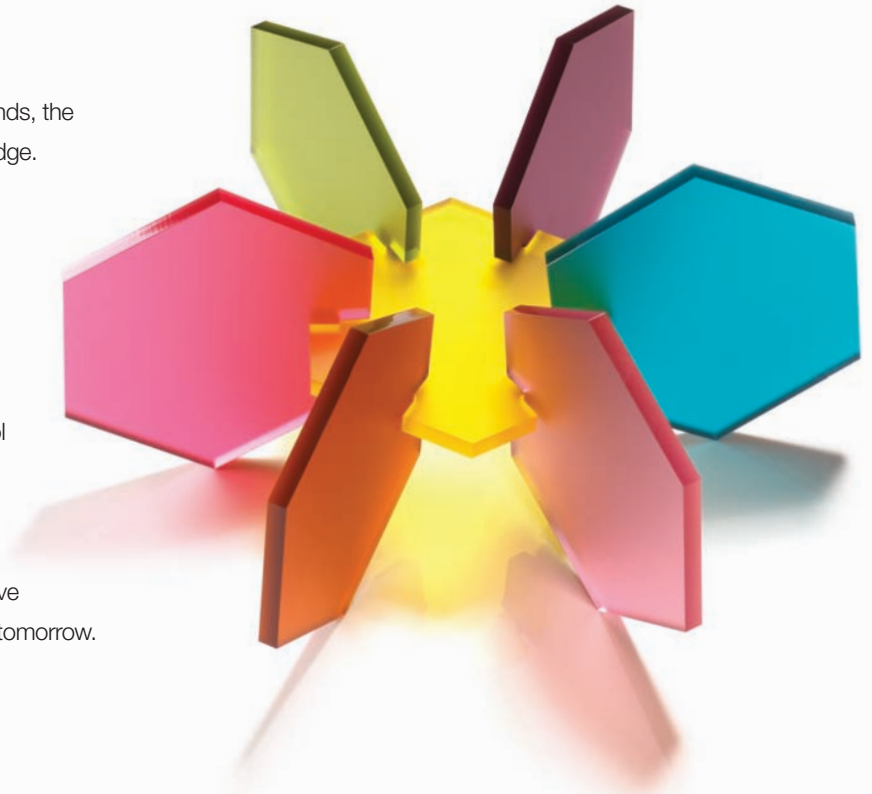

NEW LuciteLux™ Vivid for a vibrant, dynamic statement that covers all the angles.

**LuciteLux™ Vivid** - inspired by the very latest color trends, the Vivid collection is sure to give your designs a creative edge.

Vivid is a selection of today's most popular colors that will inspire today, tomorrow and beyond.

The warm tones of **Burnt Orange**, **Saffron Yellow** and **Perfect Plum** are livened up by **Lime Zest** and **Raspberry Red** with the palette completed by the cool sophistication of **Violet Heather** and the gorgeous **Azure Blue**.

A collection of colors that will give your designs a creative edge today and ensure they stand out from the crowd tomorrow.

# need a different slant..?

NEW LuciteLux™ Urban takes you from shabby chic to city slick.

Add metropolitan chic to the refined look of LuciteLux™ and you get these Urban shades - **Midnight Black**, **Moonlight White**, **Sandstone Brown**, **Earth Brown**, **Stone Grey** and **Slate Grey**.

The essence of the city is captured by stark monotoes of black and white, softened by gentler greys and balanced by warm browns.

Whether enjoying a night on the town, indulging in retail therapy or relaxing in the park, the city comes alive in true LuciteLux™ style. Versatile and sophisticated, these city slickers stand up to everything that Urban life can throw at them.

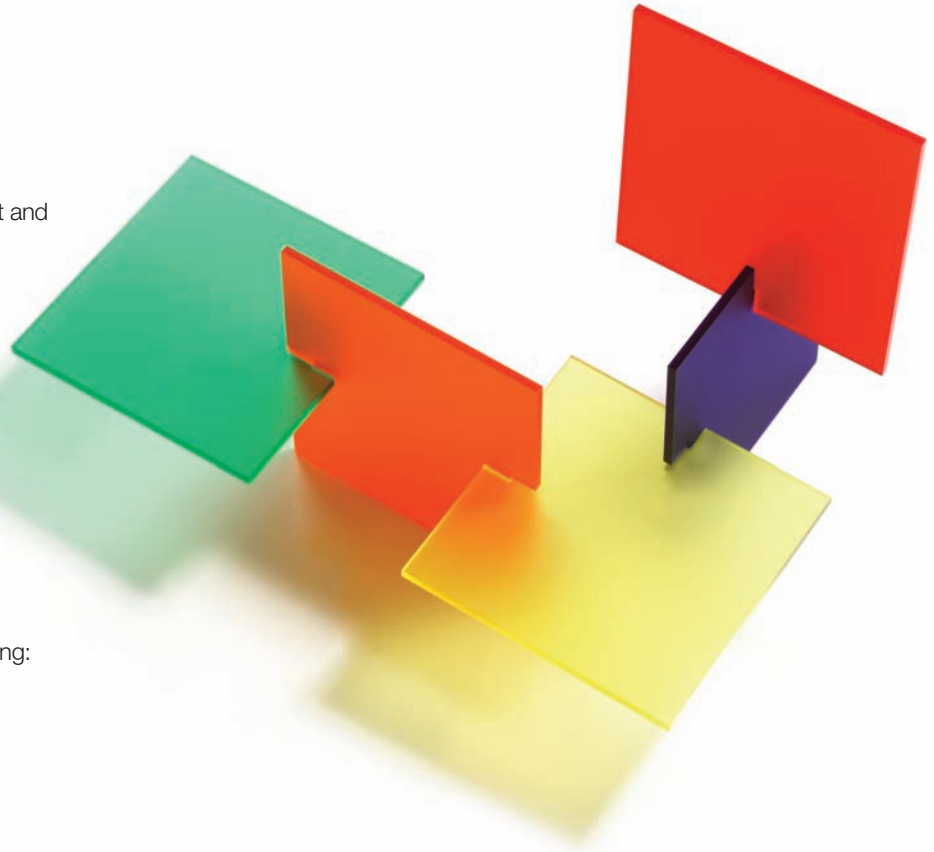

# think out of the box...

LuciteLux™ Hot Frost  
- can you take the heat?

There is hot and there is **Hot Frost** - the confident and vivacious colors that really raise the temperature. These bold colors are a great match for the confidence that designers and architects show in LuciteLux™.

The spicy tones of **Citrus Yellow, Mandarin Orange, Chilli Red, Sapphire Blue** and the new **Jade Green** brilliantly show off the fiery color potential of LuciteLux™.

A collection that shows real outside-the-box thinking:  
LuciteLux™ is truly Hot stuff!

# the all round solution...

Use LuciteLux™ Pastels and you'll always put your competition in the shade.

The ever popular **Frost Pastel** colors are the LuciteLux™ equivalent of a fine Champagne: a firm favorite, exceptional taste and perfect for any occasion! The cool classics of **Crystal Clear, Polar White, Glacier Green** and **Arctic Blue** are brought out of the shade by **Aurora Violet, Blush Pink** and **Electric Blue** to give a collection that can literally take you anywhere.

## ***An inspired choice***

Whether you choose one of the zingy new Vivid or Hot Frosts, a Pastel classic or the latest Urban shade - with LuciteLux™ you not only get an unrivalled choice of color, but also the superlative service, guaranteed product performance and exciting innovation that you know you can rely on.

LuciteLux™ - the all round solution.
